**Subject:** Anaconda Archive Database  
Yerington Archive Documents Database.xls

Good Morning Jack,

I am following up on our phone conversation yesterday. We briefly talked about ARC's request to scan Anaconda documents. I said that I would forward you the updated archive database that CH2M Hill put together; it is attached to this email. Please review the database and let us know what boxes and/or sub-files you are interested in viewing/scanning. We would like to provide constant oversight and monitoring of the documents during the project period. We need to work out the procedures to follow when handling the documents and scheduling. Please provide information on the equipment to be used, the proposed procedures that would be followed, and a tentative schedule of work. Additionally, it would be very helpful if you provided information on the anticipated level of effort that would be required to complete the scanning project.

Please call or email me if you have any questions.

Thanks,

Jacquelyn Hayes, MPH

---

Jacquelyn-

Attached is the updated database. The highlighted sections are the updated entries. LMK if you have any questions. Hope you have a great weekend!

Regards,

Ilka
